Languages & Frameworks

COMPLETE PLATFORMS

HealthBoxes – January 2024
RpM – November 2023
Hajra Traders – March 2020 to April 2020
JK GYM – September 2020 to February 2021
Quizzer – April 2021 to October 2021
Dullu Clinic Consultants – September 2021 to January 2022
City Go – February 2022 to August 2022
MyFitnessDiary – August 2022 to December 2022
JobRebuilder – September 2022 to March 2023
KDR (Konnecting Dots for Retailers) - January 2023 to April 2023

FREELANCING & SIDE PROJECTS

Tourism App
Tic Tac Toe
Automatic Hatchery (Arduino Project)
Currency Prediction (ML Python)
TAMAR (React native App)

Projects Detail

- **Hajra Traders** - March 2020 to April 2020
 - Type of Project: E-commerce website for wholesalers, with admin product listing and user monthly subscription system.
 - Skills Developed: Project management, Django Framework, Tailwind UI.
 - Languages and Frameworks:
 - Backend: Django Framework, REST framework for APIs
 - Frontend: Tailwind UI, jQuery, HTML, CSS
 - AJAX for seamless user interactions.
- **Currency Prediction System** - January 2021
 - Type of Project: Currency prediction system based on historical data analysis.
 - Skills Developed: Data analysis, Django backend development, React Native mobile application development, machine learning, and financial forecasting.
 - Languages and Frameworks:
 - Backend: Django, Django Rest Framework
 - Frontend (Mobile): React Native
 - Data Analysis and Prediction: sklearn, matplotlib, YFinance, pandas, NumPy
- **Dullu Clinic Consultants** – September 2021 to January 2022
 - Type of Project: Development of an admin panel for managing doctors and nurses' schedules for in-bed patient visits.
 - Skills Developed: Django development, React Native mobile application development, Django Rest Framework, Google APIs, Tailwind UI, route optimization.
 - Languages and Frameworks:
 - Backend: Django, Django Rest Framework
 - Frontend (Mobile): React Native
 - Maps and Route Optimization: Google APIs
 - Frontend UI: React, Tailwind UI
- **MyFitnessDiary** – August 2022 to December 2022
 - Type of Project: Development of two React Native mobile applications and a React web-based admin panel, with a
- **JK GYM** - September 2020 to February 2020
 - Type of Project: Comprehensive gym management system, automating various tasks.
 - Skills Developed: Project management, Django Python, REST Framework, React Native, React.js, pyzk (Python library for fingerprint management).
 - Languages and Frameworks:
 - Backend: Django Python, REST Framework
 - Frontend (Web): React.js
 - Frontend (Mobile): React Native
 - Desktop Application: Python, PyQt5
 - Fingerprint Management: pyzk
- **Quizzer** – April 2021 to October 2021
 - Type of Project: Secure online quiz-taking application with features for teachers and students.
 - Skills Developed: PHP development, Tailwind UI, jQuery, AJAX, web security, single-page application design.
 - Languages and Frameworks:
 - Backend: PHP
 - Frontend: Tailwind UI, jQuery, AJAX
- **CityGo** – February 2022 to August 2022
 - Type of Project: Development of two React Native mobile applications and a React web-based admin panel, with a Django backend, for a ride-sharing platform connecting drivers and riders.
 - Skills Developed: React Native mobile app development, React web app development, Django backend development, ride-sharing platform development.
 - Languages and Frameworks:
 - Backend: Django with Django Rest Framework (for API development), PostgreSQL for geolocation services
 - Frontend (Mobile): React Native
 - Frontend (Web): React
 - Real-time Chat: Django Channels and WebSocket
 - Payment Integration: Stripe APIs
- **KDR (Konnecting Dots for Retailers)** – January 2023 to April 2023
 - Type of Project: Development of two React Native mobile applications and a React web-based admin panel, with a Django backend, connecting retailers

Django backend, for fitness trainers and users.

- Skills Developed: React Native mobile app development, React web app development, Django backend development, real-time chat using Django Channels and WebSocket, payment integration with Stripe.
- Languages and Frameworks:
 - Backend: Django (with Django Channels for real-time chat) Django Rest Framework (for API development), PostgreSQL for geolocation services
 - Frontend (Mobile): React Native
 - Frontend (Web): React
 - Real-time Chat: Django Channels and WebSocket
 - Payment Integration: Stripe APIs

and users for service posting and hiring. Includes real-time chat functionality.

- Skills Developed: React Native mobile app development, React web app development, Django backend development, Stripe API integration for memberships, real-time chat using Django Channels and WebSocket.
- Languages and Frameworks:
 - Backend: Django (with Django Channels for real-time chat)
 - Frontend (Mobile): React Native
 - Frontend (Web): React
 - Payment Integration: Stripe APIs
 - Real-time Chat: Django Channels and WebSocket
